thomas bostic

has successfully completed the online Specialization

Personalized Nutrition, Policy, and Food Regulations

Learners who complete this specialization gain foundational and applied knowledge in Personalized Nutrition, U.S. Nutrition Policy, and Food Regulations. Through expert-led content, panel discussions, and interactive assessments, they develop practical skills to evaluate nutrition strategies, interpret regulatory frameworks, and understand the role of policy in shaping public health. This certificate supports career advancement in healthcare, public health, and the food industry.
