

4 Courses

Spring - Ecosystem and Core

Spring MVC, Spring Boot and Rest Controllers

Spring Data Repositories

Spring - Cloud Overview

Aug 22, 2024

Samira Zamani

has successfully completed the online Specialization

Spring Framework

This course series explains high level patterns used in Microservice architectures and the motivation to move towards these architectures and away from monolithic development of applications. Students will also learn how Java interacts with databases in a modern framework, using the very popular Spring Boot Framework, with Microservices. Students wishing to develop Java based Web Applications and Restful Micro Services will be using the very popular Spring MVC and Spring Boot frameworks with minimal configuration.

Derek Parsons
Instructor
LearnQuest

LearnQuest's Instructor Network is comprised of professionals across hundreds of technology disciplines from around the world.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
