Understanding Financial Markets

Meeting Investors' Goals

Portfolio and Risk Management

Securing Investment Returns in the Long Run

Planning your Client's Wealth over a 5-year Horizon

Dec 2, 2020

ANASTASIJA TAMULEVICIENE

has successfully completed the online Specialization

Investment Management

This Specialization, developed in partnership with UBS, covered the different steps and skills needed to build a sound investment portfolio in order to reach one's financial goals. Over the 4 courses of this specialization, learners have developed an understanding of the functioning and role of global financial markets, what impacts rational and irrational behaviors have at the micro and macro levels and how to adequately build and manage a portfolio with a long-term view while gaining an appreciation for new trends that are shaping the investment management industry. The final Capstone Project integrated theory with practice and required learners to build a sensible 5-year investment plan for a client taking into account their goals and constraints in a dynamic economic landscape.

Dr. Michel Girardin,
Specialization Manager,
Lecturer in Macro-
Finance, GFRI,
University of Geneva

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
