Fundamentals of Java
Programming

Frontend for Java Full Stack
Development

Data Structures & Backend
with Java

**BOARD
INFINITY**

Jan 21, 2024

Koushik Ragavendran

has successfully completed the online Specialization

Java FullStack Developer

In this specialization, learners are taught to build web applications using Java & Angular technologies. They have learnt the fundamentals of Java language, how to develop web applications using HTML, CSS, Angular, and how to setup backend using Spring & Springboot. They are well-equipped with the knowledge and skills needed to develop advanced applications in Java.

Abhay Gupta

Abhay Gupta, Co-
Founder, Board Infinity

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
